My Project

My Project.

Ron Norbert Wiwaya

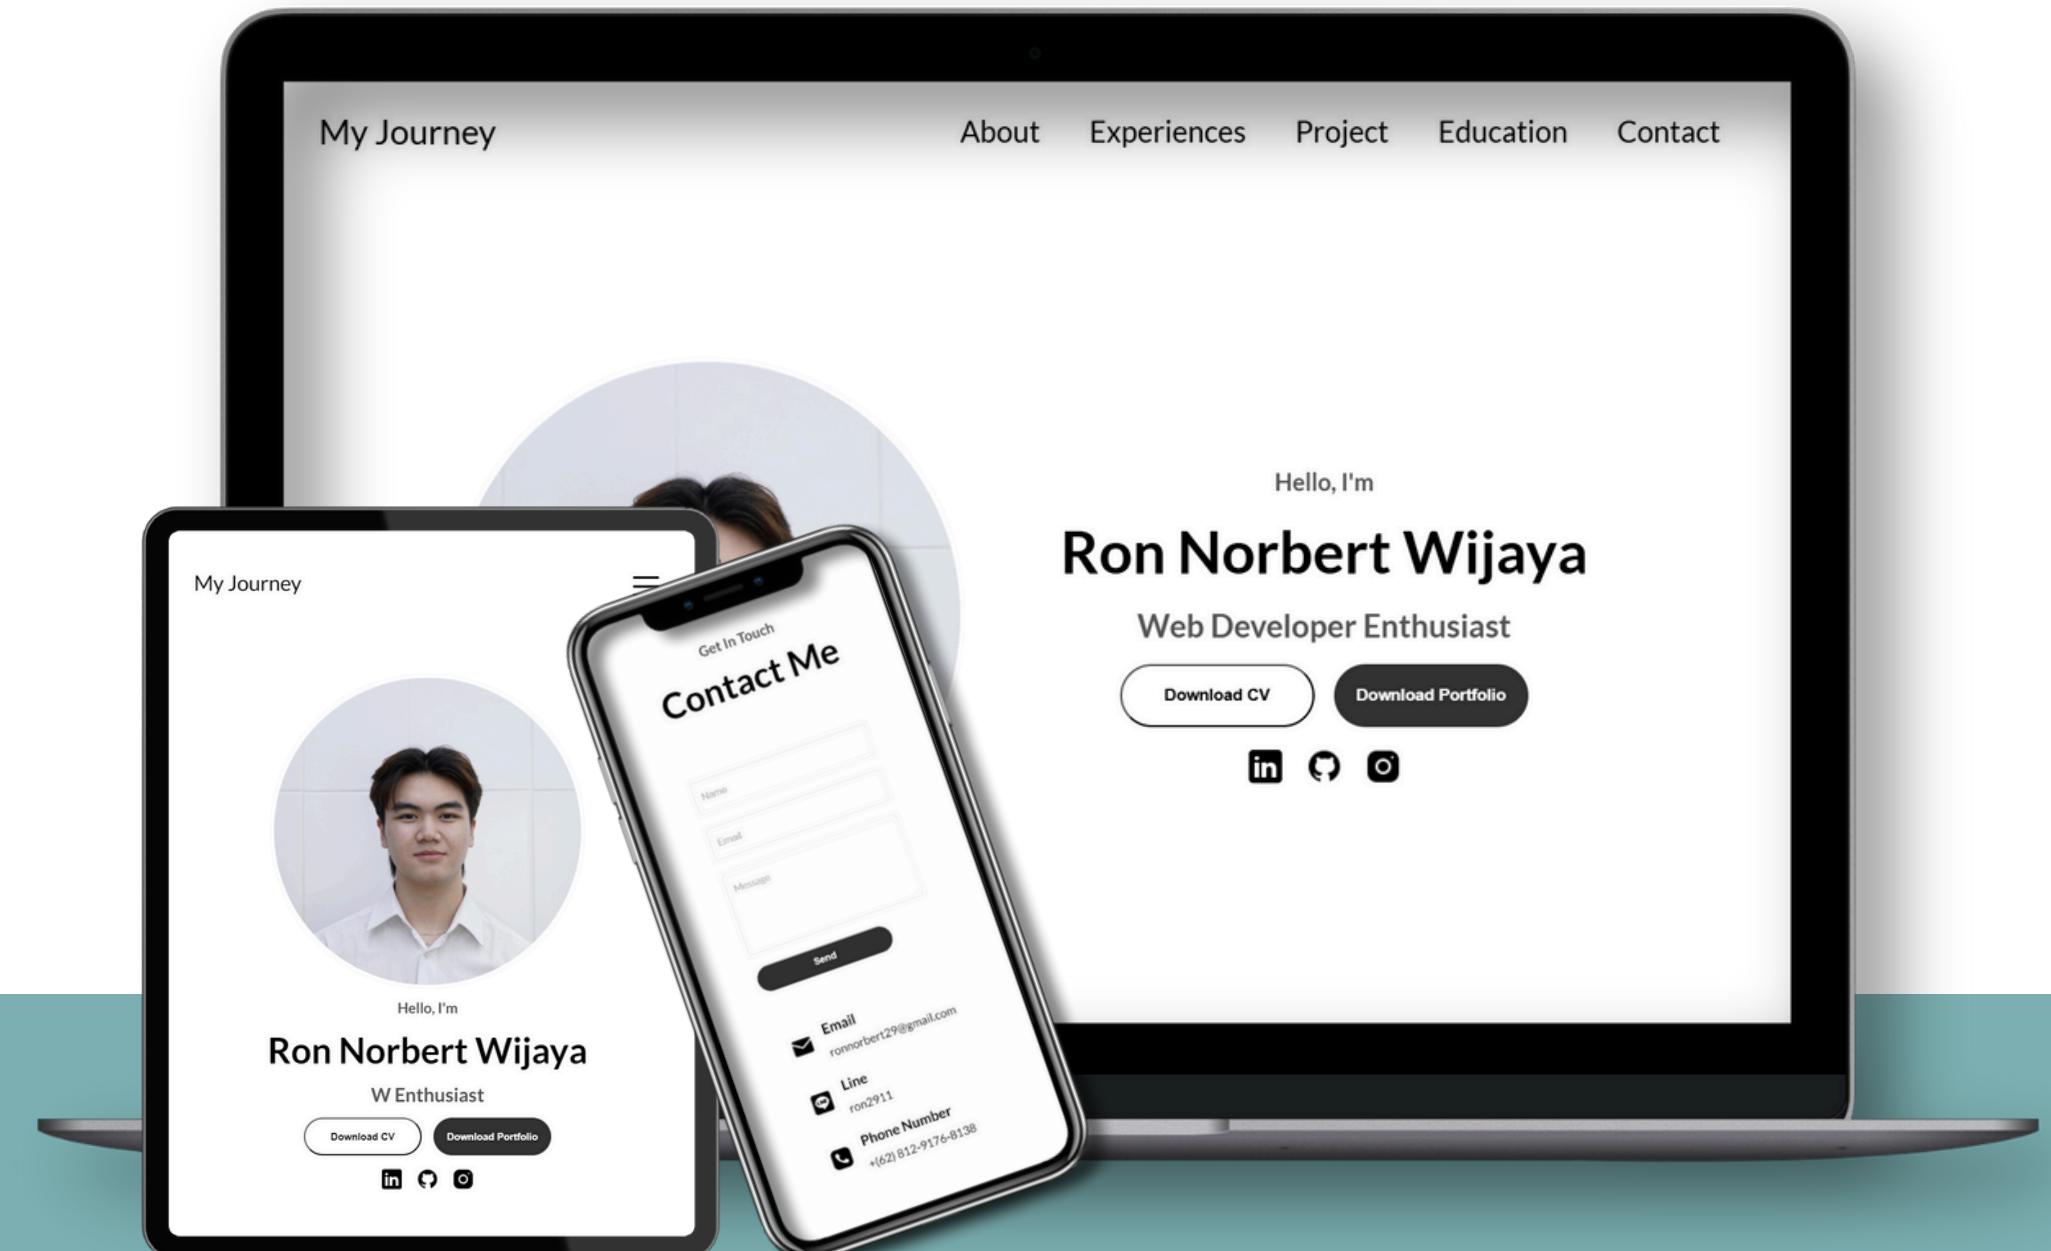

REACT.JS - HTML - CSS - JS - JAVA - SQL - FIGMA

2023 - 2024

Website

Name: Personal Website

Personal website was made for capture my life journey and the development of skills from the beginning of learning until now as a web developer and UI/UX Designer, here I want to share about myself and how far I have developed into a better person.

2024

Website

Name: Permata Mebel Store

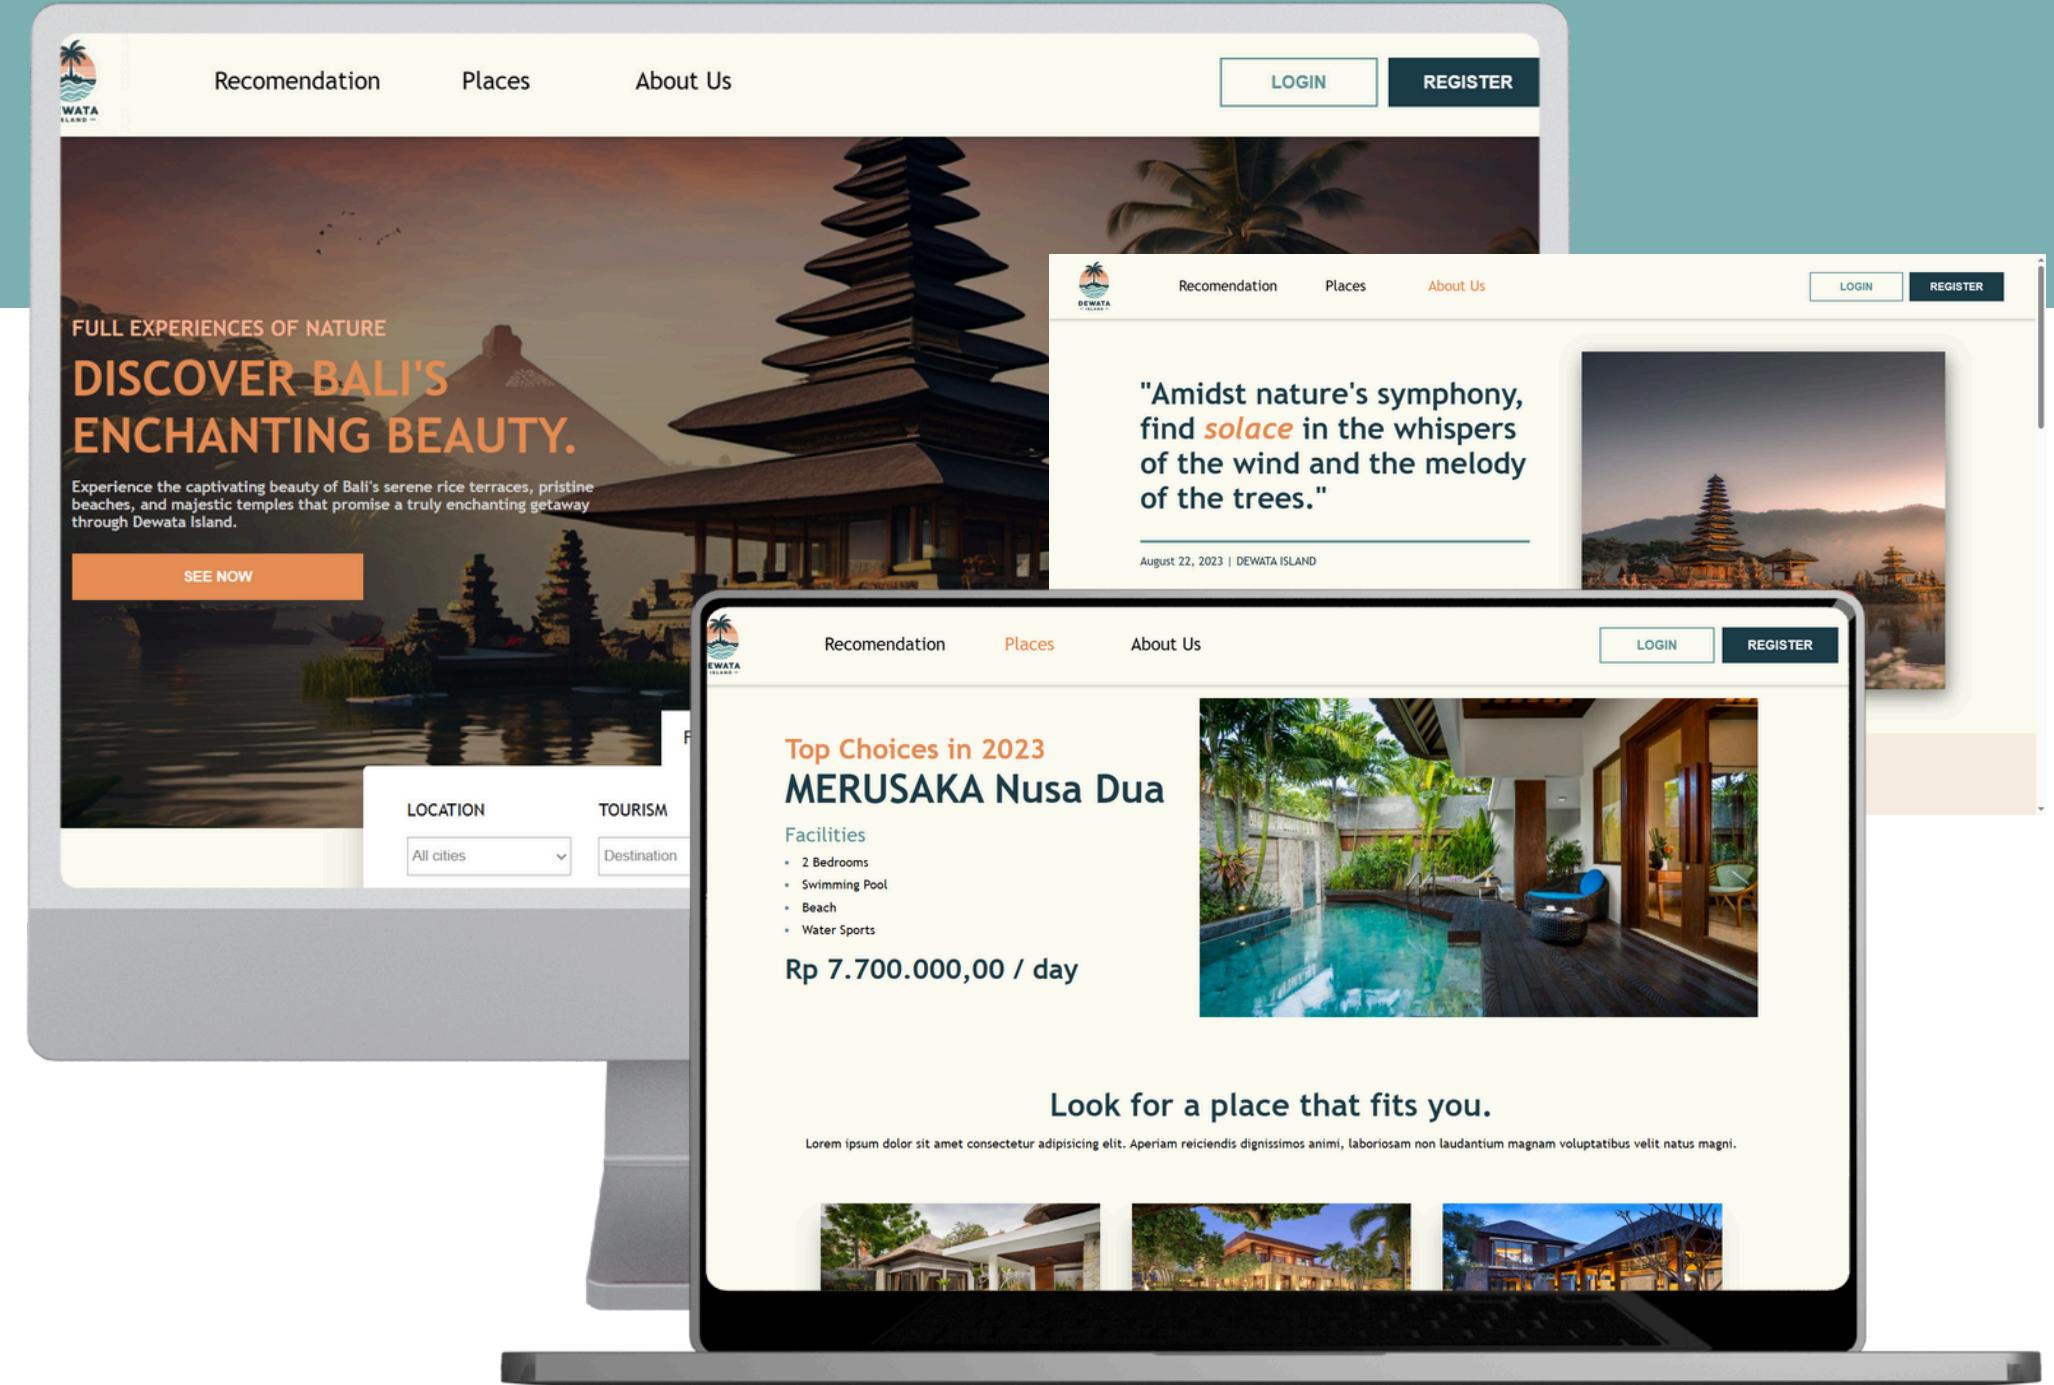

Permata Mebel Store is a furniture business website that is ready to fulfill your home interior needs with a touch of elegance and the best quality at wholesale prices.

This website was created to support my own online business on the Tokopedia and Shopee platforms. It will redirect to the product store page or homepage of the online store.

REACT.JS

The website features a top navigation bar with the Permata Mebel logo, search bar, and categories: SOFA, KASUR, LEMARI, MEJA, KURSI, and DEKORASI. Below the navigation is a banner for 'Mebel Harga Grosir Kualitas Premium' with shipping information for Indonesia (Indonesia, Courier JNE, JNT, SiCepat) and delivery times (1-7 days). The main content area includes a 'PRODUK TERBAIK TAHUN INI' section showing various mattresses, a 'BENEFIT' section with icons for 'Banyak Promo' and 'Pengiriman Kilat', a 'Mebel Terbaru Fullset Mebel' section with a sofa and side table, and a 'Tentang Toko Kami' section with a bio and a chair image. The footer contains copyright information, a 'BELANJA' section for Tokopedia and Shopee, a 'LOKASI' section for Jakarta Barat, and a 'CONTACT US' section with WhatsApp and Email details.

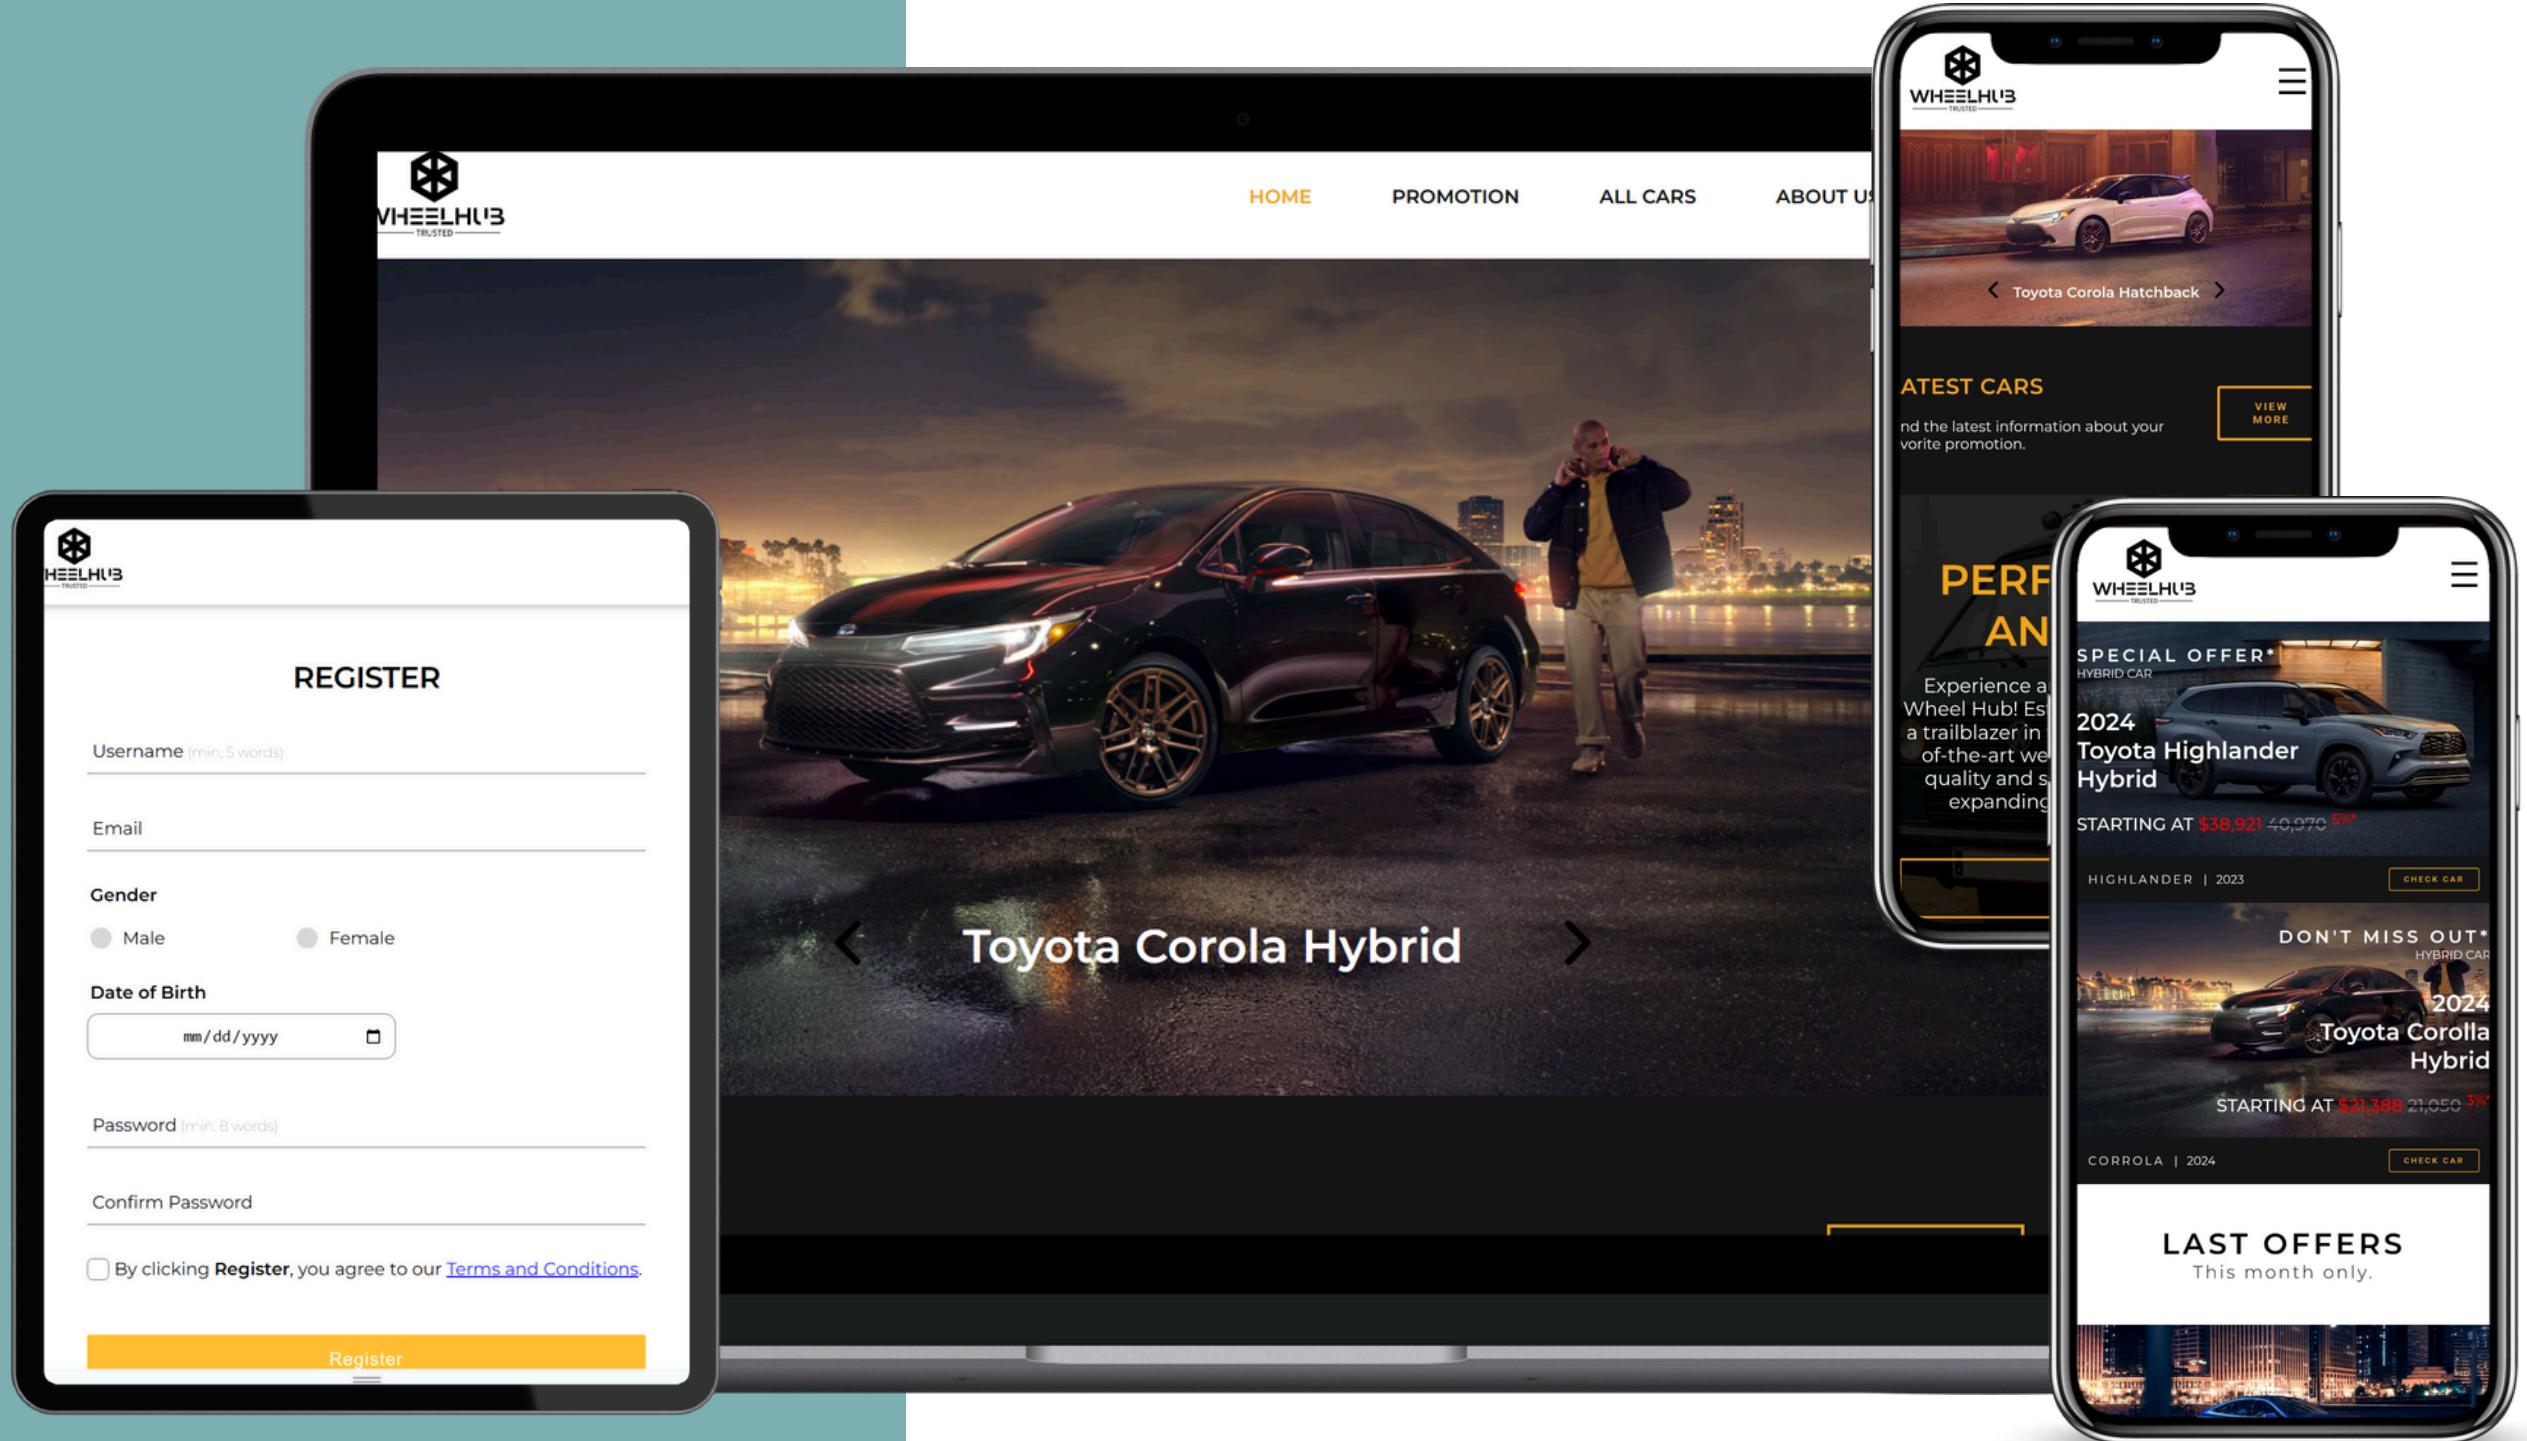

Ron Norbert Wijaya

Name: Dewata Island

Dewata Island was made to introduce the natural beauty of Bali to the wider society, both locals and foreigners. In fact, it also serves as a guide for people who want to take a vacation in Bali by providing information about tourism and the best places to stay.

This website has several pages such as home, recommendation, places, about us, and register.

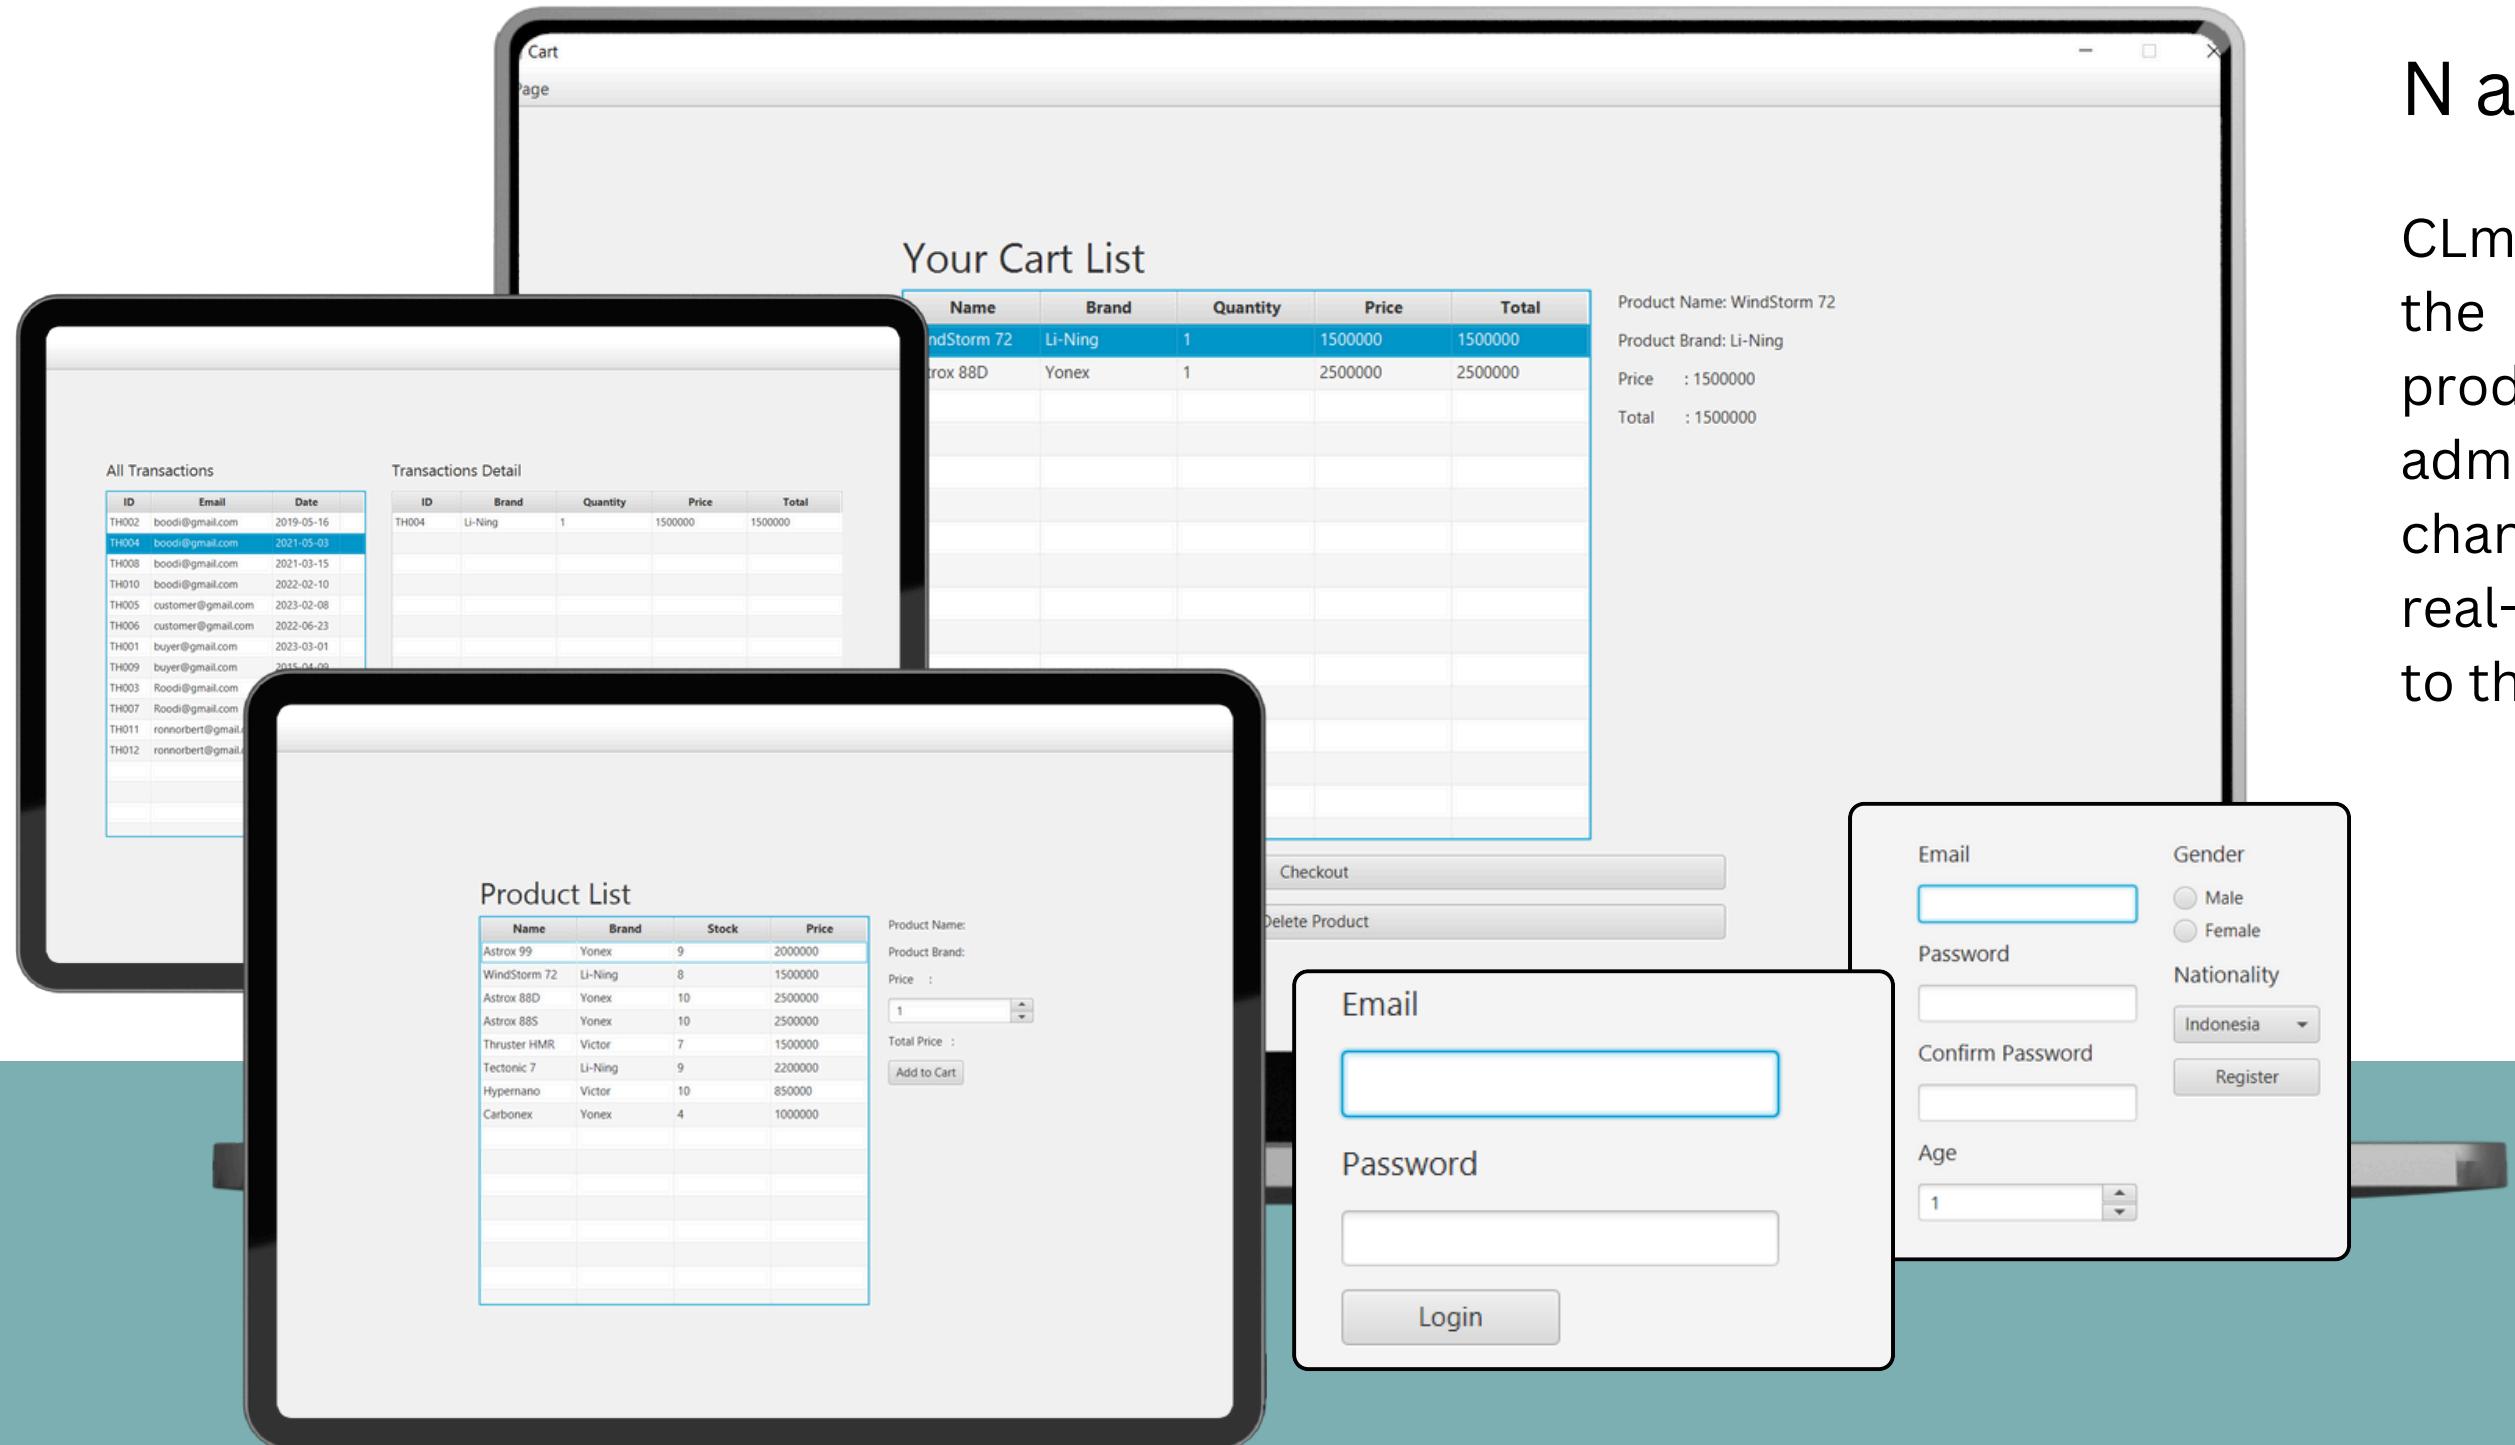

2024

Name: **WheelHub**

WheelHub is a car showroom website that offering a diverse selection of cars to suit every need and budget.

This website has several pages including home, all cars, promotions, about us, and listings.

HTML - CSS - JS

Name: **CLminton**

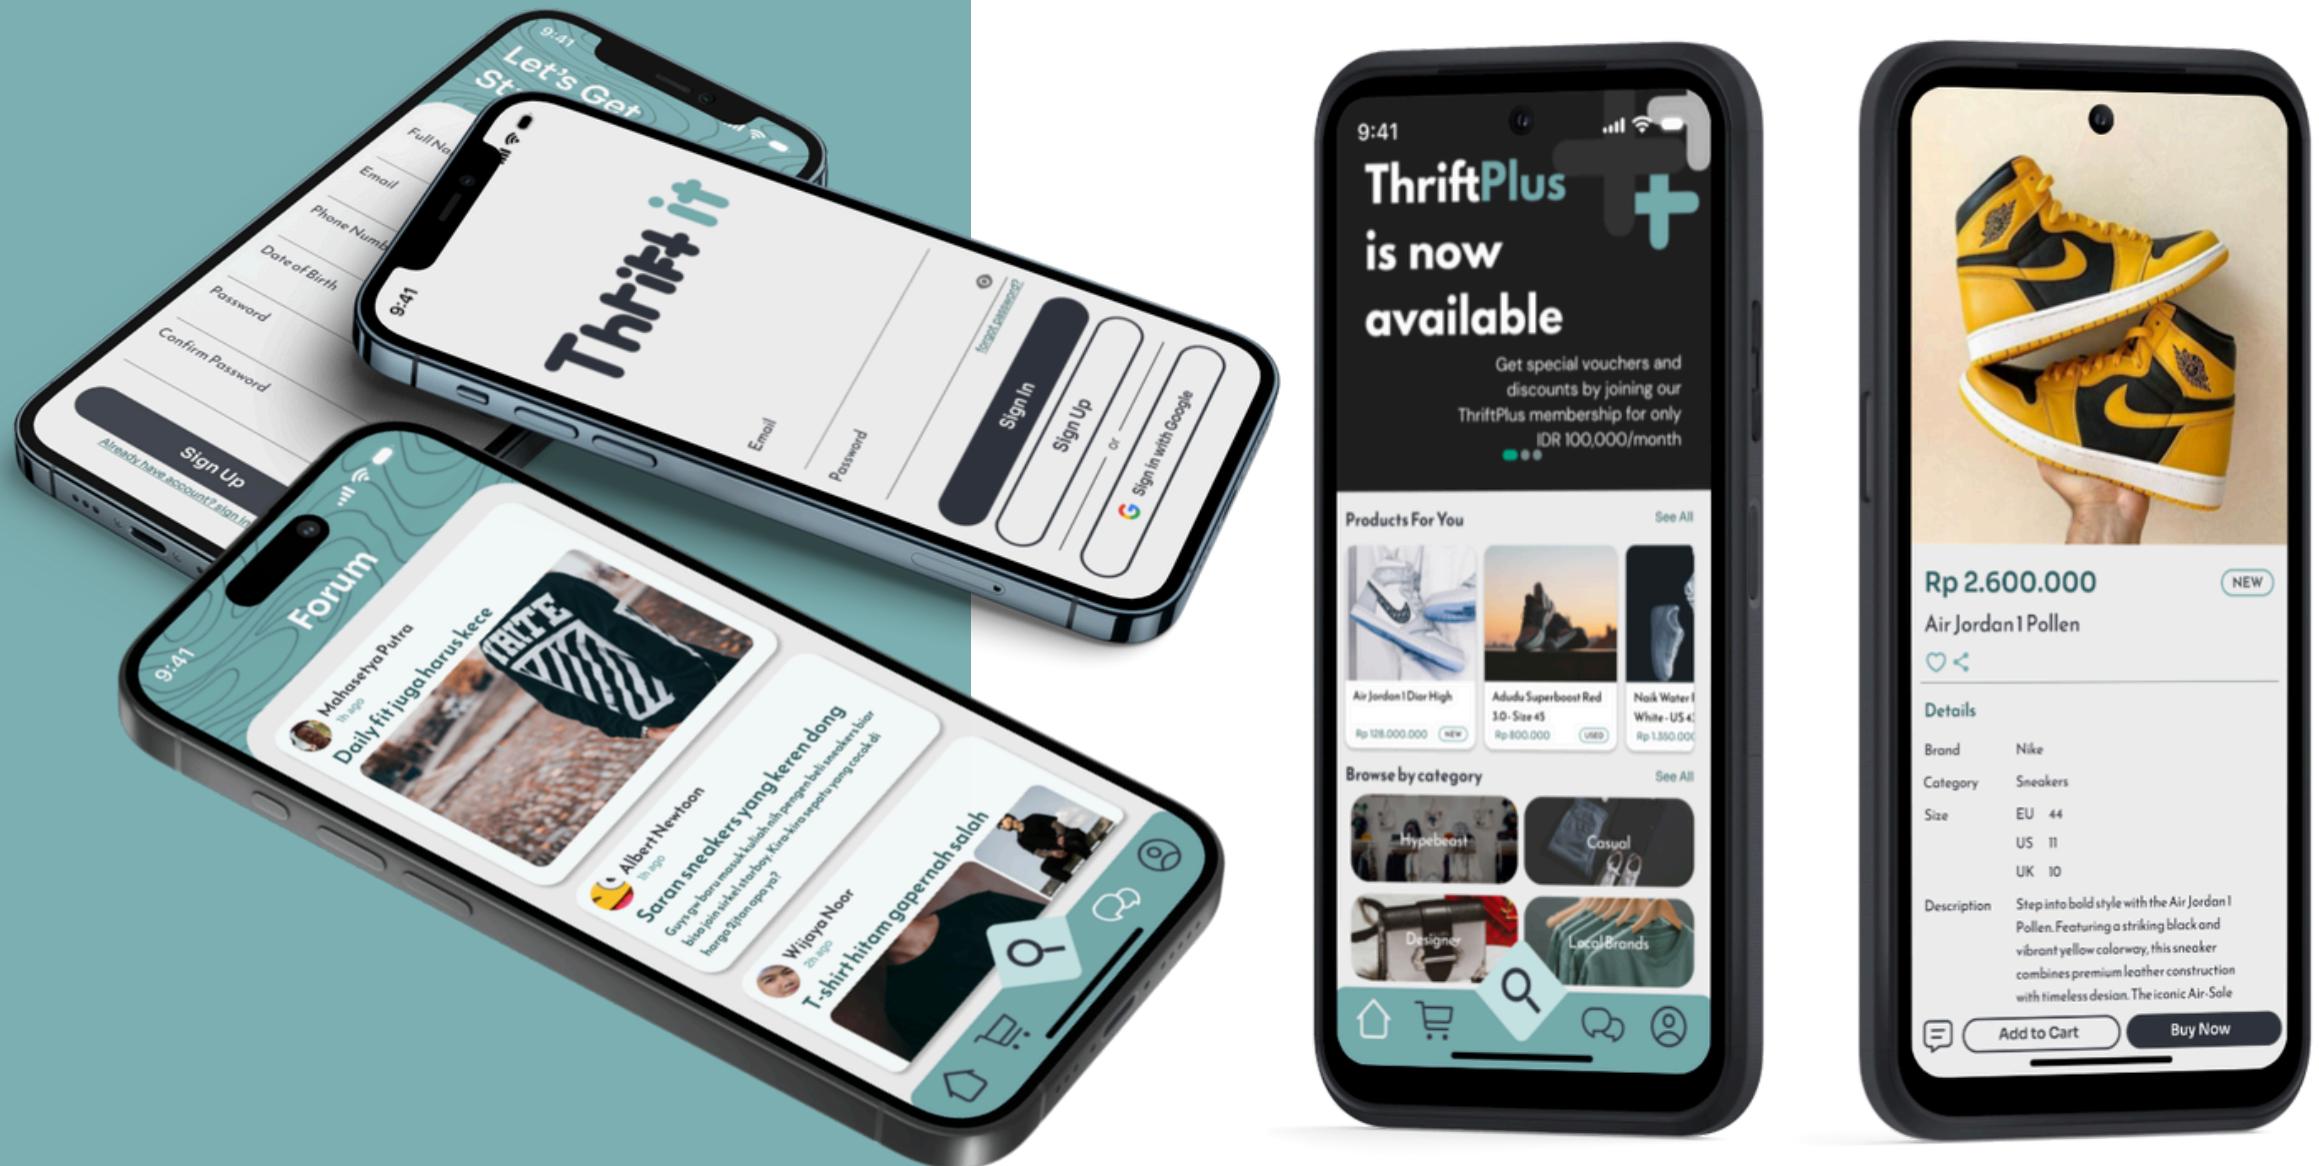

CLminton is a program to manage the course of transactions and products from CLminton, both for admin and customer. Any data changes will be updated directly in real-time because it is connected to the store database.

Name: **NOTES**

NOTES is a specialized POS application for vets and pet shops that comes with a user-friendly interface and efficient userflow. In terms of applying vouchers, NOTES offers an easy process for both cashiers and customers.

The apply voucher feature in this application aims to increase customer engagement and convenience of customer transactions by 25% and cashier or veterinarian efficiency by 30%.

Name : **ThriftIt**

ThriftIt is an e-commerce-based mobile app that focuses on fashion, but second-hand. ThriftIt is here to help sellers to reduce their business expenses and guarantee buyers with safe and reliable transactions.

This mobile app provides variety features like home, cart, search, forum, profile, and switch seller account.

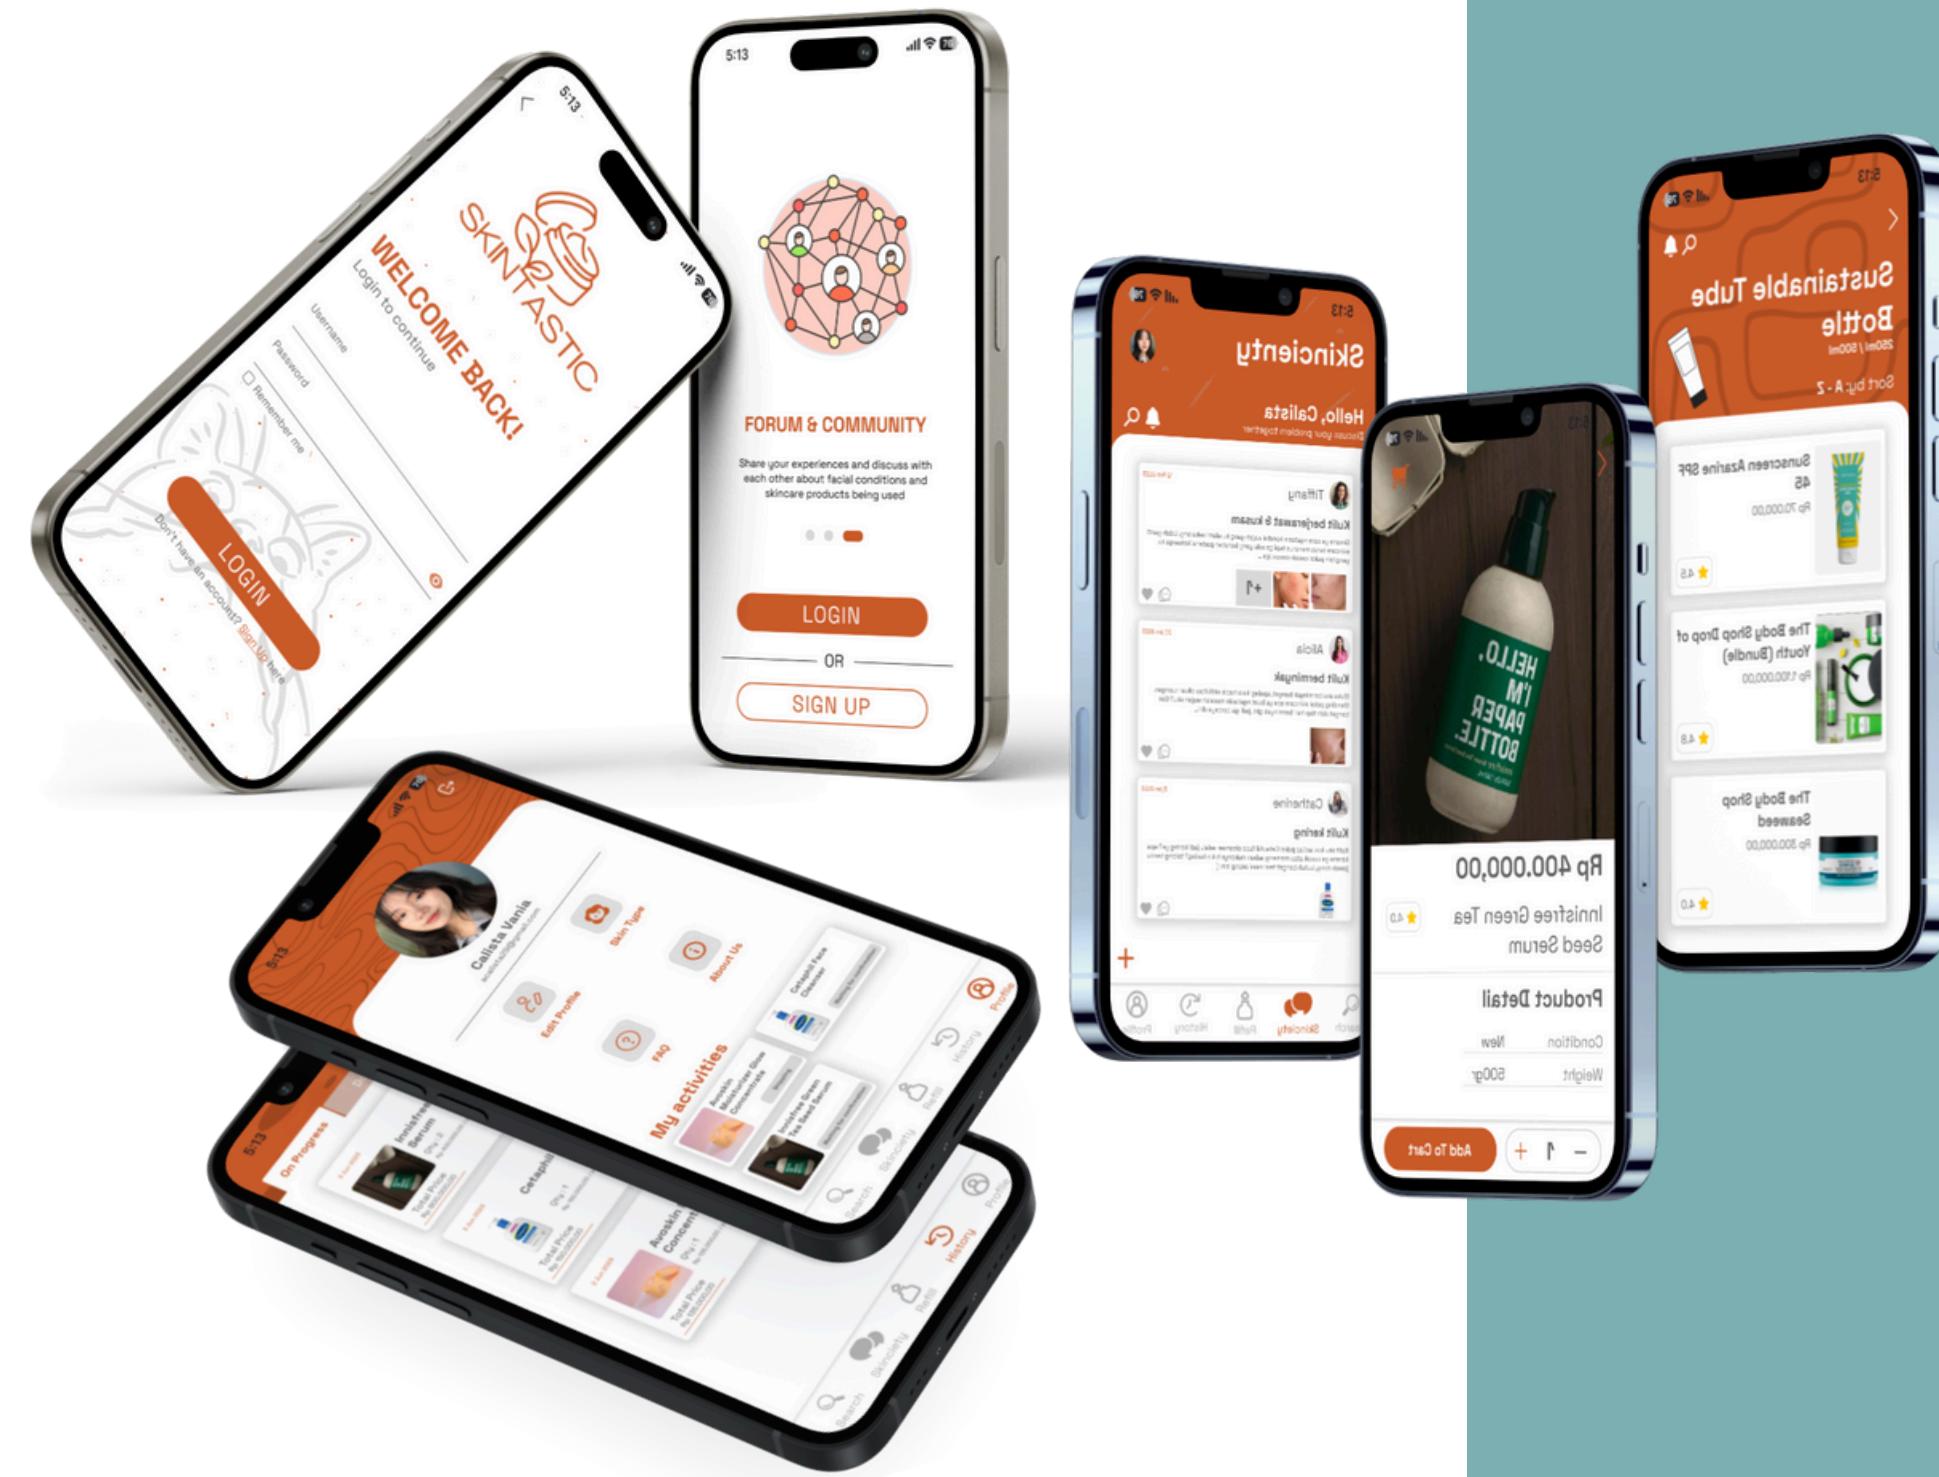

2023

Prototype

Name: **Skintastic**

Skintastic is a mobile app for facial skincare that not only cares about the skin, but also the environment. The skincare is packaged in eco-friendly packaging, made from sustainable ingredients.

This mobile app provides variety features, such as search, skincirty (forum), refill, history, and profile.
